C05 · A quiet-picture nook — illustrated fictional possibilities

Complete source · use one useful part in your usual communication

New original native illustrations of two already-approved written model possibilities. Use only after an own initial contribution if helpful. FIRST and SELECTED are fictional model labels, not learner history or controlled first/later stages. Actual learner operation/source/recipient/response remain unsupplied. An unrelated own idea, description, AAC, directed helper, unmade plan, private keeping or pass is valid. Full original written facts/ownership/evidence/own-try follow unchanged.

C05 · A quiet-picture nook

Domain and intended job: Rest and personal keeping; make a private page the maker wants to look at.

Full first written design:

- three broad circles clustered in the middle.

Full selected written design, referring only to the complete first facts above:

- the same three circles separated across a broad region.

Worked comparison: Spacing is the only supplied difference. The maker prefers separated circles; no emotional state or calming benefit is inferred from either layout.

Ownership and operation: Fictional child chooses spacing through pointing; agreeing adult moves/draws the actual chosen forms in the model description.

Evidence boundary: Supplied written fiction only. Actual learner making, tool operation, source encounter, recipient and response are not supplied. No invented reply is treated as real.
