Own response · L first · An invented button train

Use only with this complete source (source.html). No sample answer is supplied. Child responses can be made work, directed fabrication, a specification, gesture, sign, AAC, speech, later or pass. An adult may scribe exact contributions, naming help.

Q1 · Make or direct a wanted original part, keep a plan, or pass. What actually exists and who chose/operated?

Child's exact choice / actual work or plan / not observed:

Q2 · Would you keep it private, ask one real person, or choose later?

Child's exact choice / actual work or plan / not observed:

Keep the complete notice packet. Original expression CC BY 4.0; code/font/renderer terms separate.

Q3 · Only if sharing actually occurs: what selected work did the willing recipient receive, by what permitted route? Otherwise leave sharing not observed.

Child's exact choice / actual work or plan / not observed:

Q4 · Was any actual reply offered, or NONE? What would you like to keep/change/finish? Maker intention and reply stay separate.

Child's exact choice / actual work or plan / not observed:

Keep the complete notice packet. Original expression CC BY 4.0; code/font/renderer terms separate.

Adult observation, kept under local custody

Actual source/version/date and prior access:

First contribution captured before help/key: yes / no / unavailable

Child creative decisions and physical operator:

Exact access/support/prompts (before/after capture separately):

Actual work/version/trial if any; no fabricated missing trace:

Genuine maker source/account/permission, if relevant, or unavailable:

Child permission / real willing recipient / actual presented work and route, if any:

Actual reply or NONE, separate from intended idea:

Later comparison conditions, if applicable: preserved first / actual targeted teaching/date / interval / unused later source / changed support:

Next chosen opportunity:

Complete source notice (../../../source/SOURCE-NOTICE.md)

Keep the complete notice packet. Original expression CC BY 4.0; code/font/renderer terms separate.
