Share an improvement proposal

Edit an owned text/SVG copy and keep its full rights. Record the original day/item, the proposed words/question/route, what problem it solves, any changed facts with exact primary source/date/period, the affected component criterion and the full no-image route. Do not include identifiable learner work, diagnoses or private household information.

The proposal template below is a local editable file. Downloading it does not send, submit or upload it. This detached packet has no submission service, account or promise of review integration. Use the site’s verified published educator-feedback/contact route when one is available; ask your school/colleague to review the proposal before adopting it.

Retain the original version and label proposed changes. A reviewer needs the actual source, question, criterion, rights and intended audience. Check fresh facts rather than quietly changing captured evidence.
