H05 · Make a little sign

Try together: Use an invented question/list from earlier or choose C10. Child makes/directs a short count guide. Let a willing adult try one question, or self-test it. Keep an actual comment only if it happened; choose one change.

What this practises: Purposeful data communication. Keep actual child choices and adult handling/help separate. A few minutes or one question can be enough. No purchase, public sharing, personal information or returned activity is required.
