Fresh F · compare a new source

Year 2 Science · choose your question and how to show your finding

Complete literal source

Invented Record A: known clean cloth, initially flat, left-to-right tabletop span 9 equal paper units. A fictional adult gives one half-turn twist. The recorded after-span is 3 units. Invented Record B: known smooth card, initially flat, span 7 equal units. A fictional adult gently curves it. The recorded after-span is 4 units. The same unit is stated. Claim to consider: Cloth is always better at changing shape than card.

My supported comparison

All source facts, including after-spans, are available; computed changes and key stay separate.

My clearer safe plan / unknown

What comparison can these invented records support? What prevents the always claim? Choose a question and make a clearer safe plan: name what changes, what should match and one unknown. You may use words, drawings, pointing or speech. No real handling is needed.

Evidence / operator / support

Supplied fiction is not actual cloth/card operation. Choose your response method.
