Your useful data table

YOUR RESPONSE · words, drawing, signing or wanted help

Choose a safe non-personal question. Use suitable actual observations or a labelled fictional/accessed list. No data or response has been supplied.

1. What are your question, data unit, variable and source/method?

2. What are all your available records? Keep unavailable separate.

3. What frequency table and total match the records?

4. What statement is supported, what remains unknown and what will you check?
