05 · An idea worth making

Choose an invented place, abstract idea, wonder or your own purpose. Make a first bit with usual tools.

Blank frames are optional; scrap, exact adult directions or a named plan are welcome.

First component / exact directions

Own revised trial / exact directions

Try one own change; keep the first component visible or describe the actual before/after. Choose which version serves your idea.

A spoken plan does not establish material experimentation. Record the real child/adult/tool action separately.

My purpose and first component:

My actual trial / material/process/operator:

What I choose to keep or revise, and why:
